You should download our Return/Exchange Form.

The previous charged shipping costs will be included in our refund when your returns are accepted. Shipping costs for your exchanged product will not be charged. Partly returned orders will be excluded for refunds of the initial shipping costs.

How do I use the included pre-printed Return Label?

For your convenience we included a Return Label with pre printed return address. Follow the below written steps for the use of the Return address Label.

Step 1

Stick the Return Label on your parcel, after having removed the old one, or it should completely cover the old sticker. Use scotch on all 4 sides of the label.

Step 2

Make sure your parcel is well closed. Use broad tape, or ask your local post office to tape it for you. Be sure to have included the Return Form together with your product.

Step 3

Give your parcel to TNT or UPS, or another reliable carrier and use their track and trace option.
